Report on Students Analysis & Counselling Regarding Placement

To understand the student's strength and weakness and also their preparedness towards placement drive, HOD and other senior faculties have had a discussion with students. A batch of four students are called to the HOD chamber and discuss the following points.

1. Students introduced themselves about 2 minutes
2. Discussed about student's strengths and weakness and suggested to more focus on improving the weakness.
3. Academic results of each student is recorded for each semester and suggested to improve the results in the coming semester.
4. HOD suggested to use coding platform like leetcode and hackerrank and improve the ranking in the coding platform so that it will help in the placement opportunities.
5. Also discuss about the aptitude preparedness and suggested to prepare aptitude in the online platform like IndiaBIX
6. Students have discussed about their projects. HOD has suggested all the students to push their code to the Github platform.

HOD and other senior faculty and suggested all the students of 6th semester to submit the hard copy of the resume on or before 27th July 2024.

Suggested all the students to share or push the project code to the Github.

Also, department as started conducting the mock test on Moodle platform for all the six semester students on every week. It is suggested to all the students of 6th semester to make use of this opportunity and practice the aptitude questions and soft skill questions.

Finally, HOD has insisted the students to look for internship opportunities with reputed MNCs.

All the students of 6 semester AI&DS branch are promised to work more efficiently and also try to get the opportunities in a MNC companies regarding internship.
