SHRIDEVI INSTITUTE OF ENGINEERING AND TECHNOLOGY

DATA STRUCTURE OF C

**SIX DAYS SKILL TRAINING on 09/09/24 to 14/09/24 for 3rd sem
ELECTRICAL AND ELECTRONICS ENGINEERING**

A one week workshop on Data structure of C was conducted for the Second year engineering students belonging to the Department of Electrical and Electronics Engineering, Shridevi Institute of Engineering and Technology. An expert trainer named Rajesh kannan belonging to Software Solutions , took charge in training the young dynamic students..

Student Session with Trainer

Dr.Tanuja K S the Head of Department of Electrical and Electronics Engineering and Dr. Girish.L, Skill Coordinator stressed on the impact the knowledge of Data structure of C. He also stressed on the importance given by the Management in supporting academic ventures that play a pivotal role in improving the life of the students and also the society as a whole. He introduced the various trainers who had come from far off places for delivering practical content benefitting a wide variety of industries.

The first day began with the expert (Mr.Rajesh kannan) focusing on the basics of C language. He gave special emphasis on the various data types and operators used in C.He brought out the innate skills of the students and utilized that knowledge for formulating simple programs using conditional statements in coding .

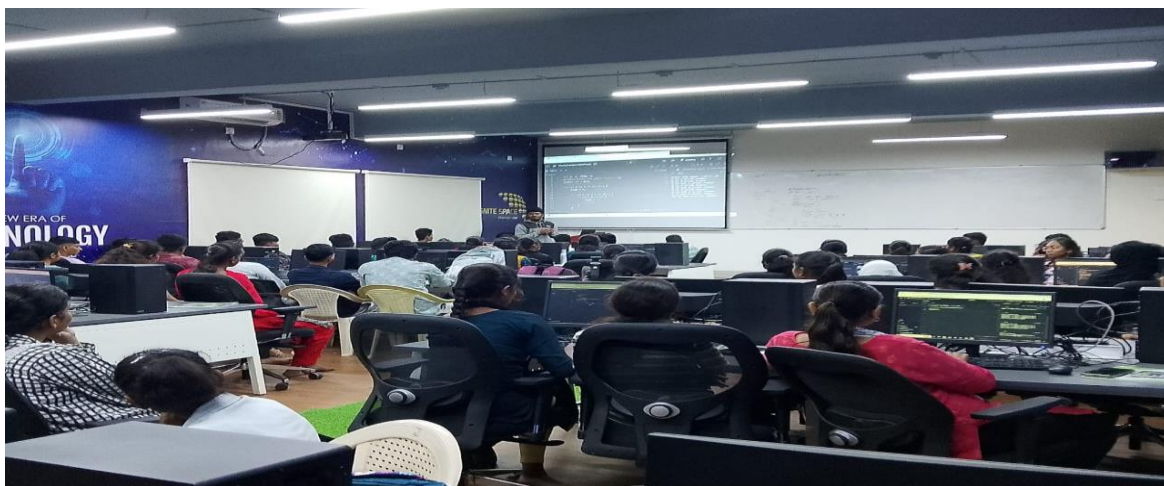

During the second day, the trainer went further in demonstrating coding programming and problem statement

During the third day, the trainer went further in demonstrating on Dynamic memory allocation array and problem statement .

The fourth day he went a step further in demonstrating static memory allocation and programming .

During the fifth day and sixth day , he went a step further in demonstrating dynamic memory allocation and programming and he further demonstrating about profile building
