

INDUSTRIAL VISIT TO TMEIC VASANTNARSAPURA TUMKUR 6/06/2024

ABOUT TMEIC

TMEIC (Toshiba Mitsubishi-Electric Industrial Systems Corporation) is a joint venture between Toshiba Corporation and Mitsubishi Electric Corporation, specializing in industrial systems and solutions. The TMEIC Tumkur facility specifically refers to their manufacturing plant located in Tumkur, Karnataka, India.

This facility plays a significant role in TMEIC's operations, focusing on the production of various industrial systems such as motors, drives, and automation systems. The plant is strategically located in Tumkur to cater to the growing industrial demands in India and neighboring regions, contributing to TMEIC's global supply chain and enhancing its capabilities in delivering advanced technology solutions.

TMEIC Tumkur is part of the broader initiative by TMEIC to expand its manufacturing footprint and capabilities worldwide, leveraging its expertise in electrical and industrial systems to support diverse
